EXHIBIT B

RECD MAY - 5 2005

May 1, 2005

Dear Jerry:

May this finds you well. Enclosed is a timeline of event since my plea Agreement. I hope it will help you to understand what I have been facing with the government. The timline is a brief background information on my case.

The Plea Agreement does not contain detailed facts on the government's promises. If it is necessary, you should get a [redacted] trial transcript to get a complete understanding of my case.

The bottom line is I did not do anything wrong since I have been out. The government is violating my rights and trying to get rid of me illegally.

I want to know what options I have to fight against my deportation. Can the federal government still charge me or violate me? What is the government's time limit in filing charges against me?

Anyway, I am glad that you are helping me with my case. I want to win this so I can move on with my life. I look forward to hear good news from you.

Thank you for your representation.

Sincerely,

Kwok Cheung Chow

Timeline after Plea Agreement:

1. On and about the year of 2000 I agreed to cooperate with the federal government to testify against Peter Chong.

2. On and about 2002 Peter Chong was convicted after my complete cooperation with the federal government.

3. Due to my full cooperation with the government I went back to Court, received a sentence reduction with time served and was released.

4. Immediately after my release from Dublin federal prison Immigration and Customs enforcement (ICE) detained me around July 2002.

5. ICE detained me in Oakland County Jail for about 10 months. Without legal representation nor translator, ICE conducted my deportation proceeding. I lost the case, appealed and lost and ordered deported.

6. During my deportation proceedings the government was in consistent contact with me. The government decided to sponsor me for a "S" visa as stated in my plea Agreement (government's promise 22).

7. The government released me on my recognizance. It required

to a curfew. For 1 year I was allowed to go out of my residence only 2 hours a day. It's a means of "Home detention." Then it changed to allowing me to go out for 4 hours a day. Six months later I was allowed to be on my own without curfew.

8. During the "Home detention" the government paid me $2,000 for living expences.

9. Once I was on my own all my living expences were provided by my relatives as a loan. I intented to pay them back after the government return the property and money it has in its possession.

10. While I was out I had to check in with my federal agent and parole officer once a month separately.

11. I volunteered to see a phychologist once a week.

12. I consistently emphasized to the federal agent the need for me to go into the Witness security Program (WSP) AS promised by the government. (Plea Agreement government promises 21).

13. The Agent stated that nothing can be done until the "S" visa is approved by ICE.

14. Throughout my check-ins with the federal agent, he asked me ~~not~~ to hang out with any known gang members

15. I never hung out nor associated with any gang member or participated in any illegal activities.

16. I expressed to the agent repeatly that each time I went out with friends and family I ran into old associates. However, I only acknowledged them and moved on

17. Due to the geographic location of my residence, it's inevitable that I ran into people who knew me. Therefore I repeatly asked the agent to go into the WSP.

18. I applied for employments, but was rejected each time due to my criminal record. I contacted the agent's and parole officer's reference, but the referred agency was closed down.

19. My Federal agent and parole officer never once expressed to me during all my check-ins that I had violated any conditions of release.

20. During early march of this year the federal agent asked me about some activites happened in Chinatown. I had no idea of any activities nor involved myself in

report to him. After some inquirings, I told the agent there was rumor that I had participated in extortion, gambling and collecting money in Chinatown. I emphasized to him that I never participated in any illegal activities since my release.

21. On and about March 12, Federal agent Wu called me in the morning and asked me to wait for him at my place of residence. Agent Wu and another agent came to my place and spoke to me in the afternoon A few minutes after they entered my apartment, about a dozen FBI & ICE agents rushed into my place with guns drawn Agent Wu told me I was under arrest and read me my rights. He did not tell me the reason for my arrest. Alameda police was involved in the arrest

22. I was detained in Yuba County Jail after my arrest.

23. On and about March 15, I was transported to San Francisco's ICE detention center for an interview with my prosecutor and Agent Wu. They told me that I was hanging out with my old associates. Therefore, I had two options, go back to Hong Kong and wait for the S Visa approval or stay in ICE detention and wait for the S visa.

24. I asked whether they my were violating me. They said no.

ICE give me my visa I would be a free man.

25. They said they would come see me in two weeks. To date, they have not come nor provide me with any documents concerning my status of detention.

26. They stated that the federal government will continue to sponsor my "S" visa.

27. On and about April 20 ICE agent told me in San Francisco that the Federal government withdrew its sponsorship for my "S" visa. He threated me to sign my traveling document. I stated that I would cooperate with the ICE agent, but I did not understand the documents I was asked to sign. Therefore, I requested the presence of my attorney or a translator. I did not sign any document

28. On and about April 29 ICE agent asked me to sign my traveling document in San Francisco. He explained that the federal government has withdrawn its sponsorship for my "S" visa. I asked the agent to give me time for my attorney to review the documents from the government. The agent agreed. my attorney reviewed the documents and took notes. The ICE agent did not provide any copies of the documents from the federal government.

Case analysis:

1. Base on what has transpired in my case, it's obvious there is a conspiracy between the FBI and ICE to deport me, and most importantly had me killed.

2. The FBI wants to renege on its plea Agreement C.P.A promises to help me stay in the U.S.

3. The government's promises in the P.A. 21 and 22 only stated application for "Witness Security Program" and sponsorship of "S" visa, but the ultimate decision is up to the Department of ~~Justice~~ Justice and ICE respectively.

4. The FBI and ICE are playing a Ping Pong match to put off responsibility on each other in attempt to deport me ASAP without giving me a chance to defend myself.

5. The FBI has not given me any documents stating its withdraw of my 'S' visa sponsorship or charge me with any wrongdoings. It only verbally informed me of its reasons for my detainment.

6. The FBI did not help me to get into ~~the~~ WSP. Instead, it put me back into the Bay Area knowing that my life would be in danger and that I would

7. The FBI did not give me the time frame for the application of S Visa nor update me with its status

8. Therefore, the FBI violated my constitutional rights to due process and ~~possibly~~ possibly human rights by putting ~~me~~ my life in danger.

9. The ICE agent also tempered with my phone call to seek legal representation while I was in San Francisco.

10. The Federal government's prosecutors are less likely to honor my plea agreement because of the change of guards. Therefore, it is crucial for us to go in front of the trial or plea judge to expose the prosecutor's violations of my case.
